

# Hunter Berge

Senior Engineer,  
Engineering Manager,  
& Entrepreneur  
Colorado Springs & Remote

## Education

University of Colorado  
2012 - 2016 (DNF)  
Bachelors of Innovation & CS

AngelPad Cohort 12  
Dec. 2018 - May 2019  
Graduate of the #1 Business  
Accelerator in the U.S.

## Skills

- ● ● ● ● ● Frontend
- ● ● ● ● ● Management
- ● ● ● ● ○ Backend
- ● ● ● ● ○ Devops

**Frontend:**  
JavaScript, React, React Native, Redux Toolkit, Redux, Angular, MUI, Tailwind, Storybook, CSS, UX/UI design, Figma

**Backend:**  
Python, Node.js, PHP, Java, Spring, MySQL, SQL, Docker, ML

**DevOps:**  
AWS suite, Vercel

**Soft Skills:**  
Engineering team management / leadership, SCRUM, people management, communication, mentorship

# About Me

Entrepreneurial engineer with experience spanning technical execution, people leadership, and business growth. Current technical founder of HeyLilo.co - an AI native management platform for appointment-based businesses. Previously led a team of 7 engineers at DeleteMe, driving application modernization, complex state management initiatives, and cross-functional collaboration with product, design, and executive stakeholders. Founder of Lot Spot Inc., where I led all technology strategy, navigated complex government contracts, and scaled the company to a multi-million-dollar valuation. I bring deep technical expertise and high-growth business judgment.

## Experience

### Technical Founder, HeyLilo.co; Denver, CO

September 2025 - current

- Built the technology behind HeyLilo.co which includes the web application (Next.js, Postgress, AWS, HIPAA compliant LLM), the marketing site, as well as the Lilo Mobile application (React Native).
- Onboarded Lilo's first enterprise customer within 6 months of development.
- Built HIPAA compliant AI into Lilo using AWS Bedrock; utilizing RLS and creating a enterprise grade permission scoping system.

### Lead Engineer & Manager, DeleteMe; Remote

2021-2025

- Built the company's B2B platform from the ground up, now generating **\$30M+ in annual revenue** and serving **50 Fortune 500 companies**.
- Partnered with the CEO and executive team to deliver technical solutions that supported **10x company growth over 4 years** (20 to 250 employees).
- Led development of a **full rebuild of DeleteMe's consumer platform** (React), delivering the project in 9 months.
- Modernized the company's brand and frontend architecture by creating a **reusable design system and component library** using React, MUI, and Storybook.

### Co-founder & Head of Engineering, Lot Spot Inc.; Colorado Springs, CO

2015-2021

- Designed a **computer vision ML algorithm** that reduced computational requirements by **11x** while improving accuracy by **20%** over existing solutions, **achieving 99.7% accuracy at 0.9W**.
- Built **IoT computer vision sensors** that processed and transmitted **hundreds of millions of data points** using MQTT.
- Developed a **multi-tenant SaaS platform** using **React & Redux** to visualize mobility data, perform analytics, and generate predictive insights.
- Created **patented slit-image ML classification software** that reduced video labeling time from **~60 minutes to under 30 seconds**.

## Leadership

### Alumni, AngelPad Cohort 12; New York NY (#1 Ranked Accelerator in the US)

2018-2019

- Worked with Thomas Corte, Google's 8th product manager, to build brand identity, company pitches, and legal structure.
- Worked on presentation and product pitching with a team of partners from Sequoia Capital (#12 ranked VC Partner in the US).

### Vietnam Innovation and Technology Conference; Speaker & Contributor.

2019

Sent to Vietnam on behalf of the US State Department to help lead an innovation and technology conference in front of Vietnam's brightest. The conference received national coverage and recognition from the Prime Minister and Minister of Science & Technology.
